Gondola
CPU Holder

by Kondator

Rotary frame 360°

Gondola CPU-holder, part no 427-CS35

The best functionality with easy assembly

A very price-worthy CPU-holder which can be docked onto a sliding track making it easy to install and remove computers. A sliding bracket with a handle, which can also be rotated 360°, gives absolute accessibility to the computer. The integrated desk spacer allows problem free installation under most desk surfaces with bulky frameworks.

In short – a very price-worthy CPU-holder!

Swivel bracket with handle

Dockable sliding track with lock.
